Don't let you investment go to waste!

Coaching makes it easy to learn...

At your own pace, in your own home, with your own machine – I'll show you slowly and patiently to take control of your computer.

You can learn everything you need to use your PC or Mac for all the things you've wanted!

Sell or Buy on eBay with confidence...

Buying on eBay is the best way to get the prices on products you want. Everyone is doing it and you can do it to. It's safe and easy and we'll go step by step – you can shop while you learn.

I'll show you everything you need to know to sell items on eBay, post pictures, even set up a PayPal account so it's all secure!

Computer Coaching really works...

So what are you waiting for? There's no time like the present to learn everything you want to know about making your computer more than just a toy.

This is not a big investment and there is no long term commitment, although once you may never want to finish and with today's changing computer world there will always be something new to learn.

Contact me today by calling 207.354.6934 or go to my website and use the Contact Me Form to tell me how I can help you straight away!
